- Hindi
- English

PROJECTS

E-commerce platform   *Live*

Tech Stack:

- Frontend: React.js, Bootstrap
- Backend: Node.js, Express.js
- Database: MongoDB
- Payment: Razorpay
- Authentication: JWT Token

Key Features:

- Intuitive Admin Panel
- Razorpay Payment Integration
- Robust JWT Token Authentication
- Advanced Search and Filtering
- Dynamic Product Detail Pages
- Similar Product Recommendations

Achievements:

- Seamless Razorpay Integration for Secure Transactions
- Efficient Admin Panel for Comprehensive Management
- User-Friendly Navigation with Advanced Search Features
- Dynamic Product Pages for Detailed Product Information
- Intelligent Similar Product Recommendations

Personal Portfolio   *Live*

Tech Stack:

- Frontend: React.js, Tailwind CSS
- Backend: Node.js, Express.js
- Database: MongoDB
- Authentication: JWT Token
- File Upload: Cloudinary

Key Features:

- Tailwind CSS Styling for Enhanced UI
- Admin Panel for Dynamic Content Management
- JWT Token Authentication for Admin Access
- Cloudinary Integration for File Uploads
- Seamless Project Updates and Resume/Certificate Management

Result:

- Successfully crafted a personalized portfolio with a clean UI using Tailwind CSS, featuring an admin panel for effortless content management and dynamic updates.
